Mixed annual wild flowers	.50

1.85

Californians should sow wild flower seed late in the Autumn just before the rainy season, but if the land can be watered then seed may be sown at any later time until May. Easterners may plant seed whenever the ground is workable in the Spring. To sow seed dig up or plow ground, smooth it over and then rake the seed lightly into the soil.

Roy Carter Seedsman gives no warranty, express or implied, as to the productiveness of any seeds, bulbs, or plant he sells and will not be in any way responsible for the crop. Our liability, in all instances, is limited to the purchase price of the seed, bulbs, and/or plants.

California customers please add 3% sales tax to their order.

All postage is prepaid in U.S.A. only.

Terms are cash with order, no C.O.D. orders please.

WE ARE ALWAYS IN THE MARKET FOR TREE AND SHRUB SEEDS OF ALL KINDS.

the first time in the history of the country, the  
people of the United States have been compelled to  
make a national effort to save their country from  
the most terrible calamity that has ever threatened  
it. The people of the United States have shown  
a spirit of self-sacrifice and devotion to their  
country that has never been equaled before.  
The people of the United States have shown
